ON TIME

WHEN you order Rose Coal you are always sure of getting it promptly. This is very important when your coal supply runs low and the weather turns suddenly cold.

QUALITY
ROSE COAL is always of uniform quality, burning out clean and free from clinkers. Mined in the outskirts of the City of Scranton, there is probably no better coal to be found in the whole Scranton District.

THOUGHTS ON PRINTING

Quality

PUBLICITY brings the buyer in touch with the maker. A business man, to be successful today, must advertise—that is, keep his goods before the public in a bright and pleasing way.

Cheap printing—the weak, rambling, illogical argument typed in poor taste, hastily printed on a cheap stock, is an eternal EXPENSE ITEM and a handicap on live business. Forceful printing—the direct, frank argument for attention, intelligently phrased and effectively dressed, clear up to the mail carrier, is a DIVIDEND-PAYING INVESTMENT, and a business getter.

The success or failure of all printing is steadily becoming more dependent upon design, as used in a broad sense. Design includes the preliminary outline or main purpose and all of the elements by which printing is made efficient. It therefore contains the insight into general business conditions and specifically into the business which is to be directly served. Design is arrangement. It is the reasonable and practical adjustment of all the mechanical and esthetic qualities to produce the very best results in competition with all the rest of the world's products. Design in printing is the element which combines imagination, taste, and skill to produce a desired and definite result. The printing industry may be termed the barometer of commercial prosperity. It differs from all other industries, in that it deals with every calling, and is closely identified with the prosperity of each.

Years of analytical experience and careful tabulation has taught that the pulling power of printed matter can be doubled or trebled by correct typography, which involves first of all what might be called the advertising instinct. Just the ordinary "type-setting" is not typography, in the sense here intended. A knowledge of advertising requirements is essential. We put into our work the advertising instinct plus experience and knowledge of what is required.

ON TIME

WHEN you order Rose Coal you are always sure of getting it promptly. This is very important when your coal supply runs low and the weather turns suddenly cold.

QUALITY
ROSE COAL is always of uniform quality, burning out clean and free from clinkers. Mined in the outskirts of the City of Scranton, there is probably no better coal to be found in the whole Scranton District.

QUALITY
ROSE COAL is always of uniform quality, burning out clean and free from clinkers. Mined in the outskirts of the City of Scranton, there is probably no better coal to be found in the whole Scranton District.

QUALITY
ROSE COAL is always of uniform quality, burning out clean and free from clinkers. Mined in the outskirts of the City of Scranton, there is probably no better coal to be found in the whole Scranton District.
